

CLASS OF

2018-2019

LEADERSHIP FOX CITIES

A PROGRAM OF 

CONGRATULATIONS

Dear Leadership Fox Cities Class of 2019,
CONGRATULATIONS!!!

The Leadership Fox Cities Steering Committee would like to thank you for your participation, engagement, and dedication over the past year. We hope that your graduation leaves you educated, inspired, and motivated to continue your journey of helping others and enriching our community. The friendships you have formed and the connections you have uncovered are powerful tools...how will you put them to use?

Remember, every experience in your life teaches you something you need to know to move forward. The Steering Committee wishes you the best of luck using your personal LFC experience to make every situation you encounter better. You can and will make a difference!

Preston Kendall
Chairman, LFC Steering Committee

Congratulations on completing Leadership Fox Cities! It has been a joy getting to know each of you this year. Every session was enhanced by your participation and commitment to the program. I hope you have developed relationships and friendships that you will value as community leaders.

The Steering Committee devoted many hours to ensure the program's success. This talented team of Leadership Fox Cities alumni demonstrates leadership at its finest. Thank you for creating interesting and dynamic sessions. Your commitment is inspiring.

This year's small group projects are a testimony to your leadership skills. I am thrilled that each project will impact our community in such positive ways. These projects are an illustration of your leadership in action.

I look forward to crossing paths in leadership circles as you continue to serve our community. Again, congratulations and best wishes.

Warm Regards,

Amy Schanke
Director, Leadership Fox Cities

SMALL GROUP PROJECTS

CATALPA

Members

Cindy Budiak, JD Gildemeister, Lacy Hardy, Adam Missell, Joe Sturzl, and Adam Winch

Objective

Our goal is to coordinate the creation of a marketing video designed to enhance the patient experience for adolescent patients and their families when going to Catalpa Health.

Our team will assist in the creation of marketing video(s) highlighting the programs and services that Catalpa offers and the journey the adolescent patients and their families will enter into when becoming a patient at Catalpa Health.

Outcome & Impact

The video will provide information to individuals who become patients of Catalpa Health and their family members. The video describes Catalpa Health and the programs they offer at their Clinic and outreach sites. This video provides a more welcoming registration process and helps explain the practice of becoming a patient at Catalpa Health. The goal of the video is to ease the patient and families minds on what to expect as they begin their journey at Catalpa Health and start the healing process. Catalpa Health had more than 9000 Kido's and their families come through their program last year. Mental Health is a growing concern in our community, our hope for this video is to be used for years to come to improve the patient experience for Catalpa Health.

PAWSIBLE, THE GIVING LION

Members

Brian Enders, Ignacio Enriquez, Jennifer McIntosh, Susan Paulus, Sarah Schneider, Nick Vargosko, and Trenten Woelfel

Objective

We have partnered with the Red Lion Paper Valley Hotel's Promise Committee and the Fox Valley Technical College to repurpose Smarty Pants, which was a part of the 2007 "Lions of the Valley." Smarty Pants will be redesigned, renamed, and displayed in the Red Lion Paper Valley Hotel lobby. As part of the redesign, the lion will become a piggy bank and a central place where donations can be made to local organizations. In order to sustain the project, the Hotel's Promise Committee will take ownership of the Pawsible's marketing and the collection and distribution of the donations. They determine how the donations will be distributed on a monthly basis. One month annually, the donations will be provided to a scholarship fund at Fox Valley Technical College. Please follow Pawsible on Facebook.

Outcome & Impact

Overall, our project offers a central location for physical, monetary donations in downtown Appleton and provides an attraction that everyone will enjoy visiting.

SMALL GROUP PROJECTS

SHOUT IT FROM THE ROOFTOPS

Members

Adam Anders, Cara Bartel, James Kilsdonk, Wes Powell, and Mel Wills

Objective

To develop a business case and playbook that is a working tool to be used as a catalyst for rooftop development in the Fox Cities. The intention is to bring the use of rooftop space to the forefront of building and business owners as not only an additional revenue opportunity, but to provide the residents and guests of the Fox Cities with a way to enjoy the beautiful communities we live in from a vantage point not experienced before. Our warm weather season is limited to only a few months of the year. By providing more outdoor entertainment space, it's a way to take advantage of that weather and the city landscape and skyline we have to offer, while still preserving the historical feel of downtown and utilizing existing real estate available.

The playbook is designed to be a guide that outlines considerations for having a rooftop venue: what the rooftop can be used for, why is it a viable option, how to begin the process of creating a rooftop space, who to contact for assistance, and what options and requirements are necessary for a rooftop to be functional. The playbook also provides contact information of resources in the community and outlined information of the various phases of the project based upon actual examples of buildings toured in downtown Appleton.

Outcome & Impact

We are hopeful that what transpires is for rooftop space to be considered relevant and practical going forward to reach members of the communities in a way that hasn't been done previously. That it's something the community rallies behind and is not only a usable space developed on existing buildings but is a consideration when constructing new buildings. We have many great events each year in the Fox Cities. Take downtown Appleton for example. The Mile of Music, annual celebratory parades, Music in the Park, Mini golf on the Town, Farmer's Market and Oktoberfest just to name a few. Now imagine participating in all these events from a rooftop. Other options can entail, painting or yoga classes, green space, business meetings, dining, or perhaps enjoying a beverage or two on a beautiful day. We see the attraction that rooftop venues have become in other cities within Wisconsin and throughout the country. As we continue to look for way to innovate and retain residents, along with attracting more residents, rooftop venues are a great way to do this.

RESTORATIVE SPACE

Members

Tyler Claringbole, Jennifer Buelow Fischer, Eric Marcoe, Alyssa Matelski, Bryan Mueller, and Lucas Schultz

Objective

To create a safe physical space inside Appleton East High School where students can go to take time for a mental, emotional, or physical health break during their school day. The renovation includes new furniture, fixtures, and wall and floor treatments focused on enhancing the physical and mental health of students.

Outcome & Impact

According to the Fox Cities LIFE Study 2016, twelve percent of high school students in the Fox Cities attempted suicide in the past year. Through our own research and meetings, our group learned that at Appleton East High School there have been over 1,100 documented counselor office visits and a 15% increase of mental health hospitalizations this year alone. To cope with challenges, students often retreat to the bathroom, skip classes, or leave campus without seeking resources offered by the school. By creating a safe and stigma free space, we hope students choose to seek help and support within in the walls of the school instead of struggling alone.

We would like to thank Theresa Lehman and the entire team at Miron Construction, Appleton East High School, Principal Matt Mineau, Associate Principal Alex Molitor and the student group Sources of Strength, without their generous support our project would still be an idea on paper. We never imagined our desire to help kids would turn into a project impacting thousands of students for years to come.

SMALL GROUP PROJECTS

WHO YOU GONNA CALL?

Members

Bret Gerrits, Jeremy Gritton, Andrew Konkel, Sarah Peotter, Ariela Rosa, and Ken Vogel

Objective

United Way's 2-1-1 is an information and referral service that provides free, confidential information and referrals for individuals that are struggling with challenges in their lives. Most individuals, unless they work in the human/social services industry or have been in an unfortunate situation themselves, are unaware of United Way's 2-1-1 and what it provides. To increase awareness and understanding of United Way's 2-1-1 among youth, particularly high school students, in the Fox Cities by engaging the Willems Student Marketing Team in a public service announcement contest. PSAs, 30 seconds in length, will be created by small groups of students for use by United Way Fox Cities and for distribution to area high schools.

Outcome & Impact

By targeting our marketing to youth, we hope to raise awareness of United Way's 2-1-1 to not only the many students that could benefit from it now, but also before it may be needed at some point in these students lives. Our partnership will result in a sustainable marketing tool for United Way's 2-1-1 that can be used over the next several years and potentially reach thousands of high schoolers. Five 30 second PSAs were created and 2 finalists will be selected. Those 2 PSAs will be shared via social media by the students themselves as part of the voting process. The winning PSA, selected by a committee of judges and taking into account the social media vote, will be featured on WBAY-TV2 for several months. The PSA will first premier on the news, along with a possible interview of the winning students. Both finalist videos will be shown in Fox Cities' high schools for years to come to continue to increase awareness of United Way's 2-1-1.

INTERSECTOR

Members

Cristi Burrill, Dan DeBaal, Ross Johnson, Mylea Juidici, Ryne Lodl, and Melissa Selig

Objective

One objective of the InterSector initiative is to connect non-profits with skilled talent in organizations to support short term projects related to business operations. Our group partnered with the InterSector team to gather insights from local businesses, which we then used to develop pilot ideas. Ultimately our group is hoping to build momentum for the InterSector team and help gain visibility for the initiative. Are you a skilled professional looking to give back to the community?

Visit www.jjkellerfoundation.org/intersector for details.

Outcome & Impact

Our group met with multiple leaders and potential volunteers at businesses throughout the Valley to conduct empathy interviews. This feedback was then used to generate project pilot ideas to kick off the initiative. As part of this effort we've developed two pilot projects, one which connects leadership from a local non-profit (Pillars) to a videographer (US Venture) to create videos to give an overview of Pillars for volunteer recruitment, and a second which updates Pillars' job descriptions/handbook. These projects can be shared with non-profits and potential volunteers as examples of the potential of InterSector.

INTERESTS

The new class of leaders identifies topics or issues in which they are experienced or have interest. This supports the belief that individuals with passion and commitment to a cause or need will provide dedicated service, in order to assist local non-profits and other community-serving organizations. This listing is a community resource.

*“If your actions inspire others to
DREAM more, LEARN more, DO more and BECOME more,
you are a leader.”*

— John Quincy Adams
