

EMPLOYER INFORMATION

Name of Organization	Baisch Engineering
Description	Baisch Engineering specializes in providing full-service integration engineering to pulp & paper & general industrial clients worldwide. With a working history beginning in 1958, we possess the expertise of a large firm as well as the whatever-it-takes attitude of a small operation. At Baisch we focus on creating connected relationships while taking ownership of our role in projects. No challenge is too big as we find ways to offer solutions to make our clients and projects a raging success. Everything we do leads back to providing service beyond solutions to our clients. Our disciplines include: Civil/Structural/Architectural, Process, Mechanical, Electrical, Process Control, BIM and Project Management.
